NEWS RELEASE

FOR RELEASE Contact: Andy Nielsen 515/281-5834

Auditor of State Mary Mosiman today released an audit report on Guthrie County, Iowa.

The County had local tax revenue of \$21,996,477 for the year ended June 30, 2015, which included \$1,229,398 in tax credits from the state. The County forwarded \$17,156,126 of the local tax revenue to the townships, school districts, cities and other taxing bodies in the County.

The County retained \$4,840,351 of the local tax revenue to finance County operations, a 4.9% increase over the prior year. Other revenues included charges for service of \$1,669,999, operating grants, contributions and restricted interest of \$3,608,410, capital grants, contributions and restricted interest of \$161,586, local option sales tax of \$504,511, unrestricted investment earnings of \$86,962 and other general revenues of \$220,129.

Expenses for County operations for the year ended June 30, 2015 totaled \$10,948,299, a 2.6% increase over the prior year. Expenses included \$5,652,928 for roads and transportation, \$1,349,870 for physical health and social services and \$1,221,789 for public safety and legal services.

A copy of the audit report is available for review in the County Auditor's Office, in the Office of Auditor of State and on the Auditor of State's web site at http://auditor.iowa.gov/reports/1510-0039-B00F.pdf.

Independent Auditor's Report

To the Officials of Guthrie County:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Guthrie County, Iowa, as of and for the year ended June 30, 2015, and the related Notes to Financial Statements, which collectively comprise the County's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Guthrie County as of June 30, 2015, and the respective changes in its financial position and, where applicable, its cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of a Matter

As discussed in Note 13, Guthrie County adopted new accounting guidance related to Governmental Accounting Standards Board (GASB) Statement No. 68, <u>Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27</u>. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the County's Proportionate Share of the Net Pension Liability, the Schedule of County Contributions and the Schedule of Funding Progress for the Retiree Health Plan on pages 9 through 15 and 54 through 64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Guthrie County's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the three years ended June 30, 2014 (which are not presented herein) and expressed unmodified opinions on those financial statements. The financial statements for the six years ended June 30, 2011 (which are not presented herein) were audited by other auditors who expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 5 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated February 16, 2016 on our consideration of Guthrie County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering Guthrie County's internal control over financial reporting and compliance.

MARY MOSIMAN, CPA

WARREN G. JENKINS, CPA Chief Deputy Auditor of State

February 16, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

Guthrie County provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2015. We encourage readers to consider this information in conjunction with the County's financial statements, which follow.

2015 FINANCIAL HIGHLIGHTS

- The County implemented Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions an Amendment of GASB Statement No. 27, during fiscal year 2015. The beginning net position for governmental activities was restated by \$2,414,299 to retroactively report the net pension liability as of July 1, 2014 and deferred outflows of resources related to contributions made after June 30, 2013 but prior to July 1, 2014. Pension expense for fiscal year 2014 and the net pension liability, deferred outflows of resources and deferred inflows of resources at June 30, 2014 were not restated because the information needed to restate those amounts was not available.
- Revenues of the County's governmental activities decreased 26.2%, or approximately \$3,944,000, from fiscal year 2014 to fiscal year 2015. Capital grants, contributions and restricted interest decreased approximately \$4,434,000 and charges for service increased approximately \$92,000.
- Program expenses of the County's governmental activities were 2.6%, or approximately \$282,000, more in fiscal year 2015 than in fiscal year 2014. Physical health and social services expenses increased approximately \$57,000 and roads and transportation expenses increased approximately \$247,000.
- The County's net position at June 30, 2015 increased 0.6%, or approximately \$144,000, over the restated June 30, 2014 balance.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the County's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Guthrie County as a whole and present an overall view of the County's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Guthrie County's operations in more detail than the government-wide financial statements by providing information about the most significant funds. The remaining financial statements provide information about activities for which Guthrie County acts solely as an agent or custodian for the benefit of those outside of County government (Agency Funds).

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the County's budget for the year, the County's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental and the individual Agency Funds.

REPORTING THE COUNTY'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information which helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting and the economic resources measurement focus, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid.

The Statement of Net Position presents financial information on all of the County's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in the County's net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal years.

The County's governmental activities are presented in the Statement of Net Position and the Statement of Activities. Governmental activities include public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, interest on long-term debt and non-program activities. Property tax and state and federal grants finance most of these activities.

Fund Financial Statements

The County has three kinds of funds:

1) Governmental funds account for most of the County's basic services. These focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The governmental funds include: 1) the General Fund, 2) the Special Revenue Funds, such as Mental Health, Rural Services and Secondary Roads, 3) the Debt Service Fund and 4) the Capital Projects Fund. These funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed, short-term view of the County's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

2) A proprietary fund accounts for the County's Internal Service, Employee Group Health Fund. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the County's various functions.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

3) Fiduciary funds are used to report assets held in a trust or agency capacity for others which cannot be used to support the County's own programs. These fiduciary funds include Agency Funds that account for drainage districts, emergency management services and the County Assessor, to name a few.

The required financial statement for fiduciary funds is a Statement of Fiduciary Assets and Liabilities.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

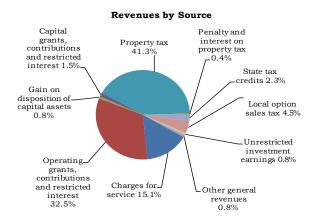

As noted earlier, net position may serve over time as a useful indicator of financial position. Guthrie County's net position decreased from approximately \$27.8 million at the end of fiscal year 2014 to approximately \$25.5 million at the end of fiscal year 2015. The analysis that follows focuses on the changes in the net position of governmental activities.

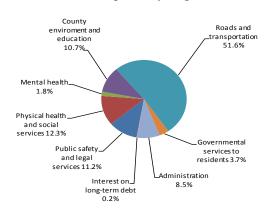

Net Position of Governm	ental Activities	
(Expressed in Tho	ousands)	
	Jı	ine 30,
		2014
	2015	(Not Restated)
Current and other assets	\$ 25,126	12,501
Capital assets	22,326	22,252
Total assets	47,452	34,753
Deferred outflows of resources	462	_
Long-term debt	16,315	1,838
Other liabilities	433	371
Total liabilities	16,748	2,209
Deferred inflows of resources	5,675	4,782
Net position:		
Net investment in capital assets	21,045	22,252
Restricted	4,989	3,922
Unrestricted	(543)	1,588
Total net position	\$ 25,491	27,762

Prior to restatement, the net position of Guthrie County's governmental activities decreased 8.2% (approximately \$25.5 million compared from approximately \$27.8 million). The largest portion of the County's net position is invested in capital assets (e.g., land, infrastructure, intangibles, buildings and equipment). Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. Unrestricted net position—the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements—decreased from approximately \$1,588,000 at June 30, 2014 to a deficit of approximately \$543,000 at the end of this year, a decrease of 134.2%, primarily due to recording the net pension liability as of July 1, 2014.

Net position end of year	\$	25,491	27,762

Expenses by Program

Property tax rates remained steady for fiscal year 2015. Countywide taxable valuations in Guthrie County have increased as follows: from \$636,185,082 in fiscal year 2013 to \$650,357,243 in fiscal year 2014 and \$654,811,860 in fiscal year 2015. Based on increases in the total assessed valuations and a decrease in property tax rates, property tax revenue is budgeted to decrease approximately \$171,000 next year.

The cost of all governmental activities this year was approximately \$10.9 million compared to approximately \$10.7 million last year. However, as shown in the Statement of Activities on page 19, the amount taxpayers ultimately financed for these activities was approximately \$5,508,000 because some of the cost was paid by those directly benefited from the programs (approximately \$1,670,000) or by other governments and organizations which subsidized certain programs with grants and contributions (approximately \$3,770,000). Overall, the County's governmental program revenues, including intergovernmental aid and charges for service, decreased in fiscal year 2015 from approximately \$9,699,000 to approximately \$5,440,000, principally due to receiving fewer contributions for roads and transportation.

INDIVIDUAL MAJOR FUND ANALYSIS

As Guthrie County completed the year, its governmental funds reported a combined fund balance of approximately \$19.8 million, an increase of approximately \$12.6 million from last year's total of approximately \$7.2 million. The increase in fund balance is primarily attributable to the receipt of approximately \$12.7 million of general obligation and revenue bond proceeds. The following are the major reasons for the changes in fund balances of the major funds from the prior year:

- General Fund revenues decreased approximately \$18,000 compared to the prior year. Expenditures increased approximately \$55,000 compared to the prior year, primarily due to an increase in part-time employees in the Sheriff's Department. The ending fund balance increased approximately \$202,000 over the prior year to approximately \$2,795,000.
- health services. The Special Revenue, Mental Health Fund revenues remained consistent when compared to the prior year. Expenditures totaled approximately \$194,000, a decrease of 8.9% from the prior year. The decrease is primarily due to the reorganization of mental health services, including the change in the method the State pays for Medicaid reimbursed services. The Mental Health Fund balance at year end increased approximately \$354,000 over the prior year to approximately \$814,000.

- Special Revenue, Rural Services Fund revenues increased approximately \$254,000, an 11.9% increase over the prior year, primarily due to an increase in solid waste fees. Expenditures remained consistent when compared to the prior year. The Rural Services Fund ending fund balance increased approximately \$40,000 over the prior year to approximately \$627,000.
- Special Revenue, Secondary Roads Fund revenues decreased approximately \$65,000 compared to the prior year, due primarily to the receipt of miscellaneous revenue compensating the County for damages in fiscal year 2014. Expenditures decreased approximately \$2,074,000, or 32.0%, from the prior year, due primarily to a decrease in roadway construction. The Secondary Roads Fund ending balance increased approximately \$598,000, or 30.1%.
- Debt Service Fund revenues and expenditures remained consistent when compared to the prior year. The \$1,715,000 Debt Service Fund fund balance at the end of the year is restricted to pay the E-911 and sewer improvement general obligation bonds.
- During the year ended June 30, 2015, the County issued \$12,000,000 of urban renewal tax increment revenue bonds to help finance the construction, reconstruction and improvement of county roads, bridges and culverts within the urban renewal district. Proceeds of \$1,426,156 were received and credited to the Capital Projects Fund and a receivable was recorded for \$10,573,844 of bonds issued for which the proceeds have not yet been received. The fund balance is restricted for capital projects. The fund balance is large because the related debt is not recorded as a fund liability under the modified accrual basis of accounting.

BUDGETARY HIGHLIGHTS

Over the course of the year, Guthrie County amended its budget two times. The first amendment was made in September 2014 and resulted in an increase in budgeted disbursements for administration and capital projects for the completion of additional bridge and road projects. The second amendment was made in May 2015. This amendment was made to provide for additional disbursements in certain County departments and payments on the E-911 bonds.

The County's receipts were \$42,173 less than budgeted, a variance of 0.4%. The most significant variance resulted from the County receiving fewer charges for service receipts than anticipated.

Total disbursements were \$1,500,521 less than the amended budget. Actual disbursements for the capital projects, roads and transportation and administration functions were \$726,723, \$169,234 and \$156,255, respectively, less than budgeted. For the capital projects and roads and transportation functions, not as much was spent on bridge projects by June 30, 2015 as anticipated. The policy and administration portion of the administration function was 7.0% less than budgeted.

Even with the budget amendments, the County exceeded the budgeted amount in the debt service function for the year ended June 30, 2015. The County made payments on the E-911 bonds without budgeting for these activities.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2015, Guthrie County had approximately \$22.3 million invested in a broad range of capital assets, including public safety equipment, buildings, park facilities and roads and bridges. This is a net increase (including additions and deletions) of approximately \$73,000, or 0.3%, over last year.

Capital Assets of Governme	ental Activities at Ye	ar End	
(Expressed in	n Thousands)		
		June 3	80,
		2015	2014
Land	\$	1,314	1,314
Works of art		128	128
Construction in progress		469	5,283
Buildings and improvements		2,193	2,289
Equipment and vehicles		3,998	3,936
Infrastructure		14,223	9,302
Total	\$	22,325	22,252

The County had depreciation expense of \$1,321,612 in fiscal year 2015 and total accumulated depreciation of \$9,562,097 at June 30, 2015. More detailed information about the County's capital assets is presented in Note 4 to the financial statements.

Long-Term Debt

At June 30, 2015, Guthrie County had \$13,715,000 of long-term debt outstanding, compared to \$1,065,000 at June 30, 2014.

Debt increased as a result of issuing revenue bonds for road and bridge construction and general obligation bonds for sewer improvements.

The Constitution of the State of Iowa limits the amount of general obligation debt counties can issue to 5% of the assessed value of all taxable property within the County's corporate limits. Guthrie County's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$71 million. Additional information about the County's long-term debt is presented in Note 6 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Guthrie County's elected and appointed officials and citizens considered many factors when setting the fiscal year 2016 budget, tax rates and the fees charged for various County activities. One of those factors is the economy. Unemployment in the County now stands at 3.30% versus 4.00% a year ago. This compares with the State's unemployment rate of 3.70% and the national rate of 5.30%.

The total taxable valuation for fiscal year 2016 increased 2.14%, or \$14,042,722. The fiscal year 2016 total countywide and total rural services levy rates decreased by \$.45187 per \$1,000 of taxable valuation from fiscal year 2015. The decrease is attributable to a levy rate decrease in the County Mental Health and Disabilities Services of \$.45187 per \$1,000 of taxable valuation. The effects of Senate File 295, Property Tax Reform, will be monitored as it continues to be implemented.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of Guthrie County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Guthrie County Auditor's Office, 200 North 5th Street, Guthrie Center, IA 50115.

Reconciliation of the Balance Sheet -Governmental Funds to the Statement of Net Position

June 30, 2015

Total governmental fund balances (page 21)		\$ 19,809,819
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds. The cost of assets is \$31,887,639 and the accumulated depreciation is \$9,562,097.		22,325,542
Other long-term assets are not available to pay current year expenditures and, therefore, are recognized as deferred inflows of resources in the governmental funds.		5,168
The Internal Service Fund is used by management to charge the costs of the partial self funding of the County's health insurance and prescription benefit plan to individual funds. The assets and liabilities of the Internal Service Fund are included with governmental activities in the Statement of Net Position.		107,567
Pension related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds, as follows:		
Deferred outflows of resources Deferred inflows of resources	\$ 462,209 (900,562)	(438,353)
Long-term liabilities, including bonds payable, the estimated liability for landfill closure and postclosure care, compensated absences payable, other postemployment benefits payable, net pension liability and accrued interest payable, are not due and payable in the current year and, therefore, are not reported in the		
governmental funds.		(16,318,735)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances -Governmental Funds to the Statement of Activities

Year ended June 30, 2015

Change in fund balances - Total governmental funds (page 25) Amounts reported for governmental activities in the Statement of Activities are different because:		\$ 12,571,481
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Depreciation expense exceed capital outlay expenditures and contributed capital assets in the current year, as follows:		
Expenditures for capital assets Capital assets contributed by the Iowa Department of Transportation Depreciation expense	\$ 1,172,779 139,775 (1,321,612)	(9,058)
In the Statement of Activities, the gain on the disposition of capital assets is reported, whereas the governmental funds report the proceeds from the disposition as an increase in financial resources.		82,114
Because some revenues will not be collected for several months after the County's year end, they are not considered available revenues and are recognized as deferred inflows of resources in the governmental funds, as follows:		
Property tax Other	469 (82)	387
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year issuances exceeded repayments, as follows:		
Issued Repaid	(12,725,000) 75,000	(12,650,000)
The current year County share of IPERS contributions are reported as expenditures in the governmental funds but are reported as deferred outflows of resources in the Statement of Net Position.		340,143
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:		
Compensated absences Estimated liability for landfill closure and postclosure care Other postemployment benefits Pension expense Interest on long-term debt	(1,593) 13,060 (58,000) (144,789) (1,592)	(192,914)
The Internal Service Fund is used by management to pay the costs of the remaining partial self-funded health insurance claims incurred under the insurance plan which has been discontinued. The change in net position of the Internal Service Fund is reported with governmental activities.		1,496
Change in net position of governmental activities (page 19)		\$ 143,649

Notes to Financial Statements

June 30, 2015

(1) Summary of Significant Accounting Policies

Guthrie County is a political subdivision of the State of Iowa and operates under the Home Rule provisions of the Constitution of Iowa. The County operates under the Board of Supervisors form of government. Elections are on a partisan basis. Other elected officials operate independently with the Board of Supervisors. These officials are the Auditor, Treasurer, Recorder, Sheriff, and Attorney. The County provides numerous services to citizens, including law enforcement, health and social services, parks and cultural activities, planning and zoning, roadway construction and maintenance and general administrative services.

The County's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Guthrie County has included all funds, organizations, agencies, boards, commissions and authorities. The County has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the County to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the County.

These financial statements present Guthrie County (the primary government) and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

<u>Blended Component Units</u> – The following component units are entities which are legally separate from the County, but are so intertwined with the County they are, in substance, the same as the County. They are reported as part of the County and blended into the appropriate funds.

Ten drainage districts have been established pursuant to Chapter 468 of the Code of Iowa for the drainage of surface waters from agricultural and other lands or the protection of such lands from overflow. Although these districts are legally separate from the County, they are controlled, managed and supervised by the Guthrie County Board of Supervisors. The drainage districts are reported as a Special Revenue Fund. The County has another drainage district which is managed and supervised by elected trustees. The financial statements for this district are reported as an Agency Fund. Financial information of the individual drainage districts can be obtained from the Guthrie County Auditor's Office.

The Prairie Woodland Conservation Foundation (formerly the Guthrie County Conservation Foundation) is an entity which is legally separate from the County, but is so intertwined with the County it is, in substance, part of the County. It is reported as a Special Revenue Fund. The Foundation has been incorporated under Chapter 504A of the Code of Iowa to receive donations for the benefit of the Guthrie County Conservation Board. These donations are to be used for development and enhancement of environmental education and conservation projects which are not included in the County's budget.

The Guthrie County Historical Village Foundation (formerly the Turn of the Century Museum Foundation) is an entity which is legally separate from the County, but is so intertwined with the County it is, in substance, part of the County. It is reported as a Special Revenue Fund. The Foundation has been incorporated under Chapter 504A of the Code of Iowa to receive donations for the benefit of the Guthrie County Conservation Board. These donations are to be used for development and enhancement of museum projects and activities which are not included in the County's budget.

Jointly Governed Organizations – The County participates in several jointly governed organizations that provide goods or services to the citizenry of the County but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The County Board of Supervisors are members of or appoint representatives to the following boards and commissions: Guthrie County Assessor's Conference Board and Guthrie County Emergency Management Commission. Financial transactions of these organizations are included in the County's financial statements only to the extent of the County's fiduciary relationship with the organization and, as such, are reported in the Agency Funds of the County.

B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the County and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are supported by property tax, intergovernmental revenues and other nonexchange transactions.

The Statement of Net Position presents the County's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories.

Net investment in capital assets consists of capital assets, net of accumulated depreciation.

Restricted net position results when constraints placed on net position use are either externally imposed or are imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> – Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The County reports the following major governmental funds:

The General Fund is the general operating fund of the County. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs not paid from other funds.

Special Revenue:

The Mental Health Fund is used to account for property tax and other revenues to be used to fund mental health, intellectual disabilities and developmental disabilities services.

The Rural Services Fund is used to account for property tax and other revenues to provide services which are primarily intended to benefit those persons residing in the county outside of incorporated city areas.

The Secondary Roads Fund is used to account for the road use tax allocation from the State of Iowa, required transfers from the General Fund and the Special Revenue, Rural Services Fund and other revenues to be used for secondary road construction and maintenance.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the County's general long-term debt.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

Additionally, the County reports the following funds:

Proprietary Fund - An Internal Service Fund is utilized to account for the financing of goods or services purchased by one department of the County and provided to other departments or agencies on a cost reimbursement basis.

Fiduciary Funds - Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, certain jointly governed organizations, other governmental units and/or other funds.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary fund and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the County considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the County.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recorded as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the County's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's Internal Service Fund is charges to customers for sales and services. Operating expenses for Internal Service Funds include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County maintains its financial records on the cash basis. The financial statements of the County are prepared by making memorandum adjusting entries to the cash basis financial records.

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and</u> Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Cash Equivalents and Pooled Investments</u> – The cash balances of most County funds are pooled and invested. Interest earned on investments is recorded in the General Fund unless otherwise provided by law. Investments are stated at fair value except for non-negotiable certificates of deposit and drainage district stamped warrants, which are stated at cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the County Board of Supervisors. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Supervisors to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Supervisors is required to certify its budget in March of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2013 assessed property valuations; is for the tax accrual period July 1, 2014 through June 30, 2015 and reflects the tax asking contained in the budget certified by the County Board of Supervisors in March 2014.

<u>Interest and Penalty on Property Tax Receivable</u> – Interest and penalty on property tax receivable represents the amount of interest and penalty that was due and payable but has not been collected.

<u>Special Assessments Receivable</u> – Special assessments receivable represent the amounts due from individuals for work done which benefits their property. These assessments are payable by individuals in not less than 10 nor more than 20 annual installments. Each annual installment with interest on the unpaid balance is due September 30 and is subject to the same interest and penalties as other taxes. Special assessments receivable represent assessments which have been made but have not been collected.

<u>Due from Other Governments</u> – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> – Inventories are valued at cost using the first-in, first-out method. Inventories consist of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Capital Assets – Capital assets, which include property, equipment and vehicles, intangibles and infrastructure assets acquired after July 1, 1980 (e.g., roads, bridges, curbs, gutters, sidewalks, and similar items which are immovable and of value only to the County), are reported in the governmental activities column in the government-wide Statement of Net Position. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Reportable capital assets are defined by the County as assets with initial, individual costs in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Infrastructure	\$ 50,000
Land, buildings and improvements	25,000
Intangibles	50,000
Equipment and vehicles	5,000

Capital assets of the County are depreciated using the straight line method over the following estimated useful lives:

	Estimated
	Useful Lives
Asset Class	(In Years)
Buildings	40 - 50
Improvements other than buildings	20 - 50
Infrastructure	30 - 65
Intangibles	2 - 15
Equipment	2 - 20
Vehicles	3 - 10

<u>Deferred Outflows of Resources</u> – Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the County after the measurement date but before the end of the County's reporting period.

<u>Due to Other Governments</u> – Due to other governments represents taxes and other revenues collected by the County and payments for services which will be remitted to other governments.

<u>Trusts Payable</u> – Trusts payable represents amounts due to others which are held by various County officials in fiduciary capacities until the underlying legal matters are resolved.

Compensated Absences – County employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide, proprietary fund and fiduciary fund financial statements. A liability for these amounts is reported in the governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2015. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and the Special Revenue, Rural Services and Secondary Roads Funds.

<u>Long-Term Liabilities</u> – In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund Statement of Net Position.

In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

<u>Pensions</u> - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Deferred Inflows of Resources</u> – Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivable that will not be recognized until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

<u>Fund Equity</u> – In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted</u> – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted fund balances.

<u>Unassigned</u> – All amounts not included in the preceding classifications.

<u>Net Position</u> – The net position of the Internal Service, Employee Group Health Fund is designated for anticipated future catastrophic losses of the County.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2015, disbursements exceeded the amount budgeted in the debt service function and disbursements in two departments exceeded the amount appropriated.

(2) Cash, Cash Equivalents and Pooled Investments

The County's deposits in banks at June 30, 2015 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The County is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Supervisors; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The County had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 3, as amended by Statement No. 40.

(3) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2015 is as follows:

Transfer to	Transfer from	Amount
Special Revenue:		
Secondary Roads	General	\$ 40,555
	Special Revenue:	
	Rural Services	 1,616,276
Total		\$ 1,656,831

Transfers generally move resources from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2015 was as follows:

		Balance				Balance
]	Beginning	Reclassi-			End
		of Year	fications	Increases	Decreases	of Year
Governmental activities:						
Capital assets not being depreciated:						
Land	\$	1,314,199	-	-	-	1,314,199
Works of art		127,765	-	-	-	127,765
Construction in progress	;	5,282,888	-	771,091	(5,584,730)	469,249
Total capital assets not being depreciated		6,724,852	-	771,091	(5,584,730)	1,911,213
Capital assets being depreciated:						
Buildings	2	2,637,229	42,548	10,859	_	2,690,636
Improvements other than buildings		1,390,383	(42,548)	-	_	1,347,835
Equipment and vehicles	;	8,888,047	-	641,510	(487,934)	9,041,623
Infrastructure, road network	1	1,311,602	-	5,584,730	-	16,896,332
Total capital assets being depreciated	2	4,227,261	-	6,237,099	(487,934)	29,976,426
Less accumulated depreciation for:						
Buildings		1,479,668	8,510	64,659	_	1,552,837
Improvements other than buildings		258,509	(8,510)	42,405	_	292,404
Equipment and vehicles	4	4,952,149	-	550,904	(459, 142)	5,043,911
Infrastructure, road network	-	2,009,301	-	663,644	-	2,672,945
Total accumulated depreciation	- 8	8,699,627	-	1,321,612	(459,142)	9,562,097
Total capital assets being depreciated, net	1;	5,527,634	-	4,915,487	(28,792)	20,414,329
Governmental activities capital assets, net	\$ 22	2,252,486	_	5,686,578	(5,613,522)	22,325,542

Depreciation expense was charged to the following functions:

Governmental	activities:
--------------	-------------

Public safety and legal services	\$ 56,687
Physical health and social services	42,441
County environment and education	88,774
Roads and transportation	1,098,856
Governmental services to residents	30,136
Administration	4,718
Total depreciation expense - governmental activities	\$ 1,321,612

(5) Due to Other Governments

The County purchases services from other governmental units and also acts as a fee and tax collection agent for various governmental units. Tax collections are remitted to those governments in the month following collection. A summary of amounts due to other governments at June 30, 2015 is as follows:

Fund	Description		Amount
General	Services	\$	1,779
Special Revenue:			
Rural Services	Services		21,646
Secondary Roads	Services		4,136
			25,782
Total for governmental funds		\$	27,561
Agency:			
County Assessor	Collections	\$	922,878
Schools			8,913,059
Community Colleges			489,366
Corporations			2,687,106
Townships			2,868,511
Auto License and Use Tax			338,587
County Hospital			1,633,050
All other			527,181
Total for agency funds		\$ 1	8,379,738

(6) Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2015 is as follows:

•			Urban	Estimated				
		General	Renewal	Liability				
	General	Obligation	Tax	for Landfill				
	Obligation	Sewer	Increment	Closure and	Compen-	Net	Net	
	E-911	Improvement	Revenue	Postclosure	sated	Pension	OPEB	
	Bonds	Bonds	Bonds	Care	Absences	Liability	Liability	Total
Balance beginning								
of year, as restated	\$1,065,000	-	-	233,550	269,628	2,742,534	270,000	4,580,712
Increases	-	725,000	12,000,000	-	203,259	-	58,000	12,986,259
Decreases	75,000		-	13,060	201,666	961,942	-	1,251,668
Balance end of year	\$ 990,000	725,000	12,000,000	220,490	271,221	1,780,592	328,000	16,315,303
Due within one year	\$ 75,000	25,000	-	12,970	241,794	-	-	354,764

General Obligation E-911 Bonds

In February 2012, the County issued general obligation E-911 bonds on behalf of the South Central Iowa Regional E-911 Service Board for acquisition of equipment. Details of the County's June 30, 2015 general obligation E-911 bond indebtedness are as follows:

Year Ending June 30,	Interest Rates	Principal	Interest	Total
2016	1.00%	\$ 75.000	21,333	96,333
2017	1.45	75,000	20,583	95,583
2018	1.45	75,000	19,495	94,495
2019	1.80	80,000	18,408	98,408
2020	1.80	80,000	16,967	96,967
2021-2025	2.15-2.50	420,000	59,223	479,223
2026-2027	2.50-2.85	185,000	7,980	192,980
Total		\$ 990,000	163,989	1,153,989

The South Central Regional E-911 Service Board has agreed to pay the County the principal and interest on the general obligation bonds as they come due. The County reports a loan receivable equal to the principal outstanding on the general obligation E-911 bonds in the Debt Service Fund.

General Obligation Sewer Improvement Bonds

In June 2015, the County issued general obligation sewer improvement bonds on behalf of the Diamondhead Sanitary District for constructing a lift station at Diamondhead Lake. Details of the County's June 30, 2015 general obligation sewer improvement bond indebtedness are as follows:

Year				
Ending	Interest			
June 30,	Rates	Principal	Interest	Total
2016	1.75%	\$ 25,000	20,885	45,885
2017	1.75	30,000	21,482	51,482
2018	1.75	30,000	20,958	50,958
2019	1.75	30,000	20,432	50,432
2020	1.75	30,000	19,908	49,908
2021-2025	1.75-2.55	165,000	88,880	253,880
2026-2030	2.55-3.25	190,000	64,012	254,012
2031-2035	3.25-4.00	 225,000	27,800	252,800
Total		\$ 725,000	284,357	1,009,357

The Diamondhead Sanitary District has agreed to pay the County the principal and interest on the general obligation bonds as they come due. The County reports a loan receivable equal to the principal outstanding on the general obligation sewer improvement bonds in the Debt Service Fund.

Urban Renewal Tax Increment Revenue Bonds

On August 6, 2014, the County entered into an agreement with the Guthrie County State Bank for the issuance of up to \$12,000,000 of urban renewal tax increment (TIF) revenue bonds for the construction, reconstruction and improvement of County roads, bridges and culverts within the urban renewal district. The County will draw down funds from the Guthrie County State Bank upon request to reimburse the County for costs as they are incurred. The bonds bear interest at 4.25% per annum. Final repayment schedules will not be adopted until the County has drawn the lesser of total project costs or the authorized amount of the bonds.

The bonds are payable solely from the tax increment financing (TIF) receipts, generated by increased property values in the County's TIF district, and are credited to the Special Revenue, Urban Renewal Tax Increment Fund in accordance with Chapter 403.19 of the Code of Iowa. TIF receipts are generally projected to produce 100% of the debt service requirements over the life of the bonds. The proceeds of the urban renewal tax increment revenue bonds shall be expended only for purposes which are consistent with the plans of the County's urban renewal area. The bonds are not a general obligation of the County. However, the debt is subject to the constitutional debt limitation of the County. As of June 30, 2015, \$1,426,156 has been advanced to the County. For the current year, there were no TIF receipts and no interest payments.

The closing date on the TIF revenue bonds was prior to June 30, 2015. Accordingly, a receivable of \$10,573,844 is reported as of the closing date as prescribed by U.S. generally accepted accounting principles. This amount is included in the Statement of Net Position as loan receivable.

(7) Pension Plan

<u>Plan Description</u> - IPERS membership is mandatory for employees of the County, except for those covered by another retirement system. Employees of the County are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by the Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information

<u>Pension Benefits</u> – A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits.) Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

Sheriffs, deputies and protection occupation members may retire at normal retirement age, which is generally at age 55. Sheriffs, deputies and protection occupation members may retire any time after reaching age 50 with 22 or more years of covered employment.

The formula used to calculate a sheriff's, deputy's or protection occupation member's monthly IPERS benefit includes:

- 60% of average salary after completion of 22 years of service, plus an additional 1.5% of average salary for years of service greater than 22 but not more than 30 years of service.
- The member's highest three-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned on or after July 1, 2012, the reduction is 0.25 percent for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50 percent for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

<u>Disability and Death Benefits</u> - A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions - Effective July 1, 2012, as a result of a 2010 law change, the contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2015, pursuant to the required rate, Regular members contributed 5.95% of covered payroll and the County contributed 8.93% for a total rate of 14.88%. The Sheriff and deputies and the County each contributed 9.88% of covered payroll for a total rate of 19.76%. Protection occupation members contributed 6.76% of covered payroll and the County contributed 10.14% for a total rate of 16.90%.

The County's contributions to IPERS for the year ended June 30, 2015 were \$340,143.

Net Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2015, the County reported a liability of \$1,780,592 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions to IPERS relative to the contributions of all IPERS participating employers. At June 30, 2014, the County's collective proportion was .044898%, which was a decrease of .002868% from its collective proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the County recognized pension expense of \$144,789. At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Defer	red Outflows	Deferred Inflows
	of F	Resources	of Resources
Differences between expected and			
actual experience	\$	20,138	16,959
Changes of assumptions		81,776	13,979
Net difference between projected and actual			
earnings on pension plan investments		-	867,950
Changes in proportion and differences between			
County contributions and the County's proportionate			
share of contributions		20,152	1,674
County contributions subsequent to the			
measurement date		340,143	
Total	\$	462,209	900,562

\$340,143 reported as deferred outflows of resources related to pensions resulting from the County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	
Ending	
June 30,	Amount
2016	\$ (196,087)
2017	(196,087)
2018	(196,087)
2019	(196,087)
2020	5,852
Total	\$ (778,496)

There were no non-employer contributing entities to IPERS.

<u>Actuarial Assumptions</u> - The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Rate of inflation	3.00% per annum
(effective June 30, 2014)	
Rates of salary increase	4.00 to 17.00%, average, including inflation.
(effective June 30, 2010)	Rates vary by membership group.
Long-term investment rate of return	7.50%, compounded annually, net of investment
(effective June 30, 1996)	expense, including inflation

The actuarial assumptions used in the June 30, 1014 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected		
Asset Class	Asset Allocation	Real Rate of Return		
US Equity	23%	6.31%		
Non US Equity	15	6.76		
Private Equity	13	11.34		
Real Estate	8	3.52		
Core Plus Fixed Income	28	2.06		
Credit Opportunities	5	3.67		
TIPS	5	1.92		
Other Real Assets	2	6.27		
Cash	1	(0.69)		
Total	100%			

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed employee contributions will be made at the contractually required rate and contributions from the County will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.50%) or 1% higher (8.50%) than the current rate.

	1%	Discount	1%
	Decrease	Rate	Increase
	(6.50%)	(7.50%)	(8.50%)
County's proportionate share of			
the net pension liability:	\$ 3,773,565	\$1,780,592	\$ 99,436

<u>IPERS' Fiduciary Net Position</u> - Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

<u>Payables to IPERS</u> - At June 30, 2015, the County reported payables to IPERS of \$26,422 for legally required employer contributions and \$18,418 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

(8) Other Postemployment Benefits (OPEB)

<u>Plan Description</u> – The County operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. There are 87 active and no retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a partially self-funded medical plan administered by Employee Benefit Systems. Retirees under age 65 would pay the same premium for the medical/prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

<u>Funding Policy</u> – The contribution requirements of plan members are established and may be amended by the County. The County currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The County's annual OPEB cost is calculated based on the annual required contribution (ARC) of the County, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the County's annual OPEB cost for the year ended June 30, 2015, the amount actually contributed to the plan and changes in the County's net OPEB obligation:

Annual required contribution	\$ 67,000
Interest on net OPEB obligation	7,000
Adjustment to annual required contribution	(16,000)
Annual OPEB cost	58,000
Contributions made	
Increase in net OPEB obligation	58,000
Net OPEB obligation beginning of year	270,000
Net OPEB obligation end of year	\$ 328,000

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2015.

For the year ended June 30, 2015, the County and plan members eligible for benefits did not contribute to the medical plan.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

Year		Percentage of	Net
Ended	Annual	Annual OPEB	OPEB
June 30,	OPEB Cost	Cost Contributed	Obligation
2013	\$ 55,000	0%	\$ 213,000
2014	57,000	0	270,000
2015	58,000	0	328,000

<u>Funded Status and Funding Progress</u> – As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2014 through June 30, 2015, the actuarial accrued liability was \$436,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$436,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$3,408,000 and the ratio of the UAAL to covered payroll was 12.8%. As of June 30, 2015, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the County's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%. An inflation rate of 0% is assumed for the purpose of this computation.

Mortality rates are from the 94 Group Annuity Mortality Table, projected to 2000, and applied on a 2/3 female, 1/3 male basis.

Projected claim costs of the medical plan are \$447 per month for retirees less than age 65. All coverage ceases when the retiree attains age 65. Therefore, claim costs are not calculated for retirees over the age of 65. The actuary made no payroll assumptions as to the future because benefits are not payroll related. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(9) Landfill Closure and Postclosure Care

To comply with federal and state regulations, the County is required to complete a monitoring system plan and a landfill closure/postclosure care plan and to provide funding necessary to effect closure and postclosure, including the proper monitoring and the care of the landfill after closure. Environmental Protection Agency (EPA) requirements have established closure and thirty-year postclosure care requirements for all municipal solid waste landfills that receive waste after October 9, 1993. State governments are primarily responsible for implementation and enforcement of those requirements and have been given flexibility to tailor requirements to accommodate local conditions that exist. The effect of the EPA requirements is to commit landfill owners to perform certain closing functions and postclosure monitoring functions as a condition for the right to operate a landfill in the current period. The EPA requirements provide that when a landfill stops accepting waste, it must be covered with a minimum of twenty-four inches of earth to keep liquid away from the buried waste. Once the landfill is closed, the owner is responsible for maintaining the final cover, monitoring ground water and methane gas, and collecting and treating leachate (the liquid that drains out of waste) for thirty years.

Governmental Accounting Standards Board Statement No. 18, effective for periods beginning after June 15, 1993, requires landfill owners to estimate total landfill closure and postclosure care costs and recognize a portion of these costs each year based on the percentage of estimated total landfill capacity used that period. Estimated total costs consist of four components: (1) the cost of equipment and facilities used in postclosure monitoring and care, (2) the cost of final cover (material and labor), (3) the cost of monitoring the landfill during the postclosure period and (4) the cost of any environmental cleanup required after closure. Estimated total cost is based on the cost to purchase those services and equipment currently and is required to be updated annually for changes due to inflation or deletion, technology, or applicable laws or regulations.

The total costs for the County have been estimated at \$220,490 as of June 30, 2015, and that liability has been recognized. The liability represents the cumulative amount reported to date based on the use of 100% of the capacity of the landfill. The County has reserved \$460,428 of its debt capacity to cover these costs.

To comply with state regulations, the County is required to completed a closure plan detailing how the transfer station will comply with proper disposal of all solid waste and litter at the site, cleaning the transfer station building, including the rinsing of all surfaces that have come in contact with solid waste or washwater, cleaning of all solid waste transport vehicles that will remain on site, including the rinsing of all surfaces that have come in contact with solid waste, and the removal and proper management of all washwater in the washwater management system.

To comply with state regulations, the County is required to maintain a closure account as financial assurance for the closure costs. The effect of the state requirement is to commit landfill owners to perform certain closing functions as a condition for the right to operate the transfer station.

As of June 30, 2015, the total closure costs for the transfer station have been estimated at \$9,723 and the County has restricted \$10,000 in a closure account included in the Special Revenue, Rural Services Fund to cover any possible closure and postclosure care costs for the transfer station.

(10) Risk Management

The County is a member of the Iowa Communities Assurance Pool, as allowed by Chapter 331.301 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 727 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual casualty operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses estimated for the fiscal year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained at a level determined by the Board not to exceed 300% of basis rate.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses, reinsurance premiums, losses and loss expense for property risks estimated for the fiscal year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The County's property and casualty contributions to the risk pool are recorded as expenditures from its operating funds at the time of payment to the risk pool. The County's contributions to the Pool for the year ended June 30, 2015 were \$198.570.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$350,000 per claim. Claims exceeding \$350,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the County's risk-sharing certificate. Property and automobile physical damage risks are retained by the Pool up to \$250,000 each occurrence, each location. Property risks exceeding \$250,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of the risk-sharing protection provided by the County's risk-sharing certificate.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim, property loss or series of claims or losses exceeds the amount of risk-sharing protection provided by the County's risk-sharing certificate, or in the event a casualty claim, property loss or series of claims or losses exhausts the Pool's funds and any excess risk-sharing recoveries, then payment of such claims or losses shall be the obligation of the respective individual member against whom the claim was made or the loss was incurred.

The County does not report a liability for losses in excess of reinsurance or excess risk-sharing recoveries unless it is deemed probable such losses have occurred and the amount of such loss can be reasonably estimated. Accordingly, at June 30, 2015, no liability has been recorded in the County's financial statements. As of June 30, 2015, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claim expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Upon withdrawal, a formula set forth in the Pool's intergovernmental contract with its members is applied to determine the amount (if any) to be refunded to the withdrawing member.

The County also carries commercial insurance purchased from other insurers for coverage associated with workers compensation and employee blanket bond in the amount of \$1,000,000 and \$100,000, respectively. The County assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(11) Employee Health Insurance Plan

The Internal Service, Employee Group Health Fund was established to account for the partial self-funding of the County's health insurance and prescription benefit plan. This plan was modified on January 1, 2011 to be a partial self-funded plan only. The plan which was funded by both employee and County contributions in prior years is administered through a service agreement with Employee Benefit Systems, Inc. The agreement is subject to automatic renewal provisions. The County assumes liability for the difference between the employee deductible (\$750 for single and \$1,500 for family) and the County deductible on the policy (\$2,000 for single and \$4,000 for family) for the health plan.

Funds remaining in the Employee Group Health Fund will be used to pay outstanding claims from the previous insurance plan. The County had an unrestricted net position of \$107,567 at June 30, 2015 in the Employee Group Health Fund to cover future claims. The cash balance held by Employee Benefit Systems, Inc. was \$27,415 at June 30, 2015.

(12) Guthrie County Financial Information Included in the Heart of Iowa Mental Health Region

Heart of Iowa Mental Health Region, a jointly governed organization formed pursuant to the provisions of Chapter 28E of the Code of Iowa which became effective July 10, 2014, includes the following member counties: Audubon County, Dallas County, Greene County and Guthrie County. The financial activity of Guthrie County's Special Revenue, Mental Health Fund is included in the Heart of Iowa Mental Health Region for the year ended June 30, 2015, as follows:

Revenues:

Property and other county tax		\$ 483,283
Intergovernmental:		
State tax credits	\$ 28,710	
Social services block grant	30,480	
Other	131	59,321
Miscellaneous		5,138
Total revenues		547,742
Expenditures:		
Services to persons with		
mental illness		59,129
General administration:		
Direct administration	48,981	
Distribution to regional fiscal agent	85,809	134,790
Total expenditures		193,919
Excess of revenues over expenditures		353,823
Fund balance beginning of year		459,839
Fund balance end of year		\$ 813,662

(13) Accounting Change/Restatement

Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27, was implemented during fiscal year 2015. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, GASB Statement No. 68 requires a state or local government employer to recognize a net pension liability and changes in the net pension liability, deferred outflows of resources and deferred inflows of resources which arise from other types of events related to pensions. During the transition year, as permitted, beginning balances for deferred outflows of resources and deferred inflows of resources are not reported, except for deferred outflows of resources related to contributions made after the measurement date of the beginning net pension liability which is required to be reported by Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. Beginning net position for governmental activities was restated to retroactively report the beginning net pension liability and deferred outflows of resources related to contributions made after the measurement date, as follows:

	Governmental Activities
Net position June 30, 2014, as previously reported	\$ 27,761,658
Net pension liability at June 30, 2014	(2,742,534)
Deferred outflows of resources related to prior year contibutions made after the June 30, 2013 measurement date	328,235
Net position July 1, 2014, as restated	\$25,347,359

Notes to Required Supplementary Information - Budgetary Reporting

June 30, 2015

The budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the County Board of Supervisors annually adopts a budget on the cash basis following required public notice and hearing for all funds except blended component units, the Internal Service Fund and Agency Funds, and appropriates the amount deemed necessary for each of the different County offices and departments. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control is based upon ten major classes of expenditures known as functions, not by fund. These ten functions are: public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, non-program, debt service and capital projects. Function disbursements required to be budgeted include disbursements for the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Fund. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. Legal budgetary control is also based upon the appropriation to each office or department. During the year, two budget amendments increased budgeted disbursements by \$1,871,332. The budget amendments are reflected in the final budgeted amounts.

In addition, annual budgets are similarly adopted in accordance with the Code of Iowa by the appropriate governing body as indicated: for the County Extension Office by the County Agricultural Extension Council, for the County Assessor by the County Conference Board and for Emergency Management Services by the County Emergency Management Commission.

During the year ended June 30, 2015, disbursements exceeded the amount budgeted in the debt service function and disbursements exceeded the amounts appropriated in two departments.

7.31%	6.89%	6.57%

Notes to Required Supplementary Information - Pension Liability

Year ended June 30, 2015

Changes of benefit terms:

Legislation passed in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of retirement before age 65.

In 2008, legislative action transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Benefit provisions for sheriffs and deputies were changed in the 2004 legislative session. The eligibility for unreduced retirement benefits was lowered from age 55 by one year each July 1 (beginning in 2004) until it reached age 50 on July 1, 2008. The years of service requirement remained at 22 or more. Their contribution rates were also changed to be shared 50-50 by the employee and employer, instead of the previous 40-60 split.

Changes of assumptions:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in the future years. It also included in the calculation of the UAL amortization payments the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate.

The 2006 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted salary increase assumptions to service based assumptions.
- Decreased the assumed interest rate credited on employee contributions from 4.25% to 4.00%.
- Lowered the inflation assumption from 3.50% to 3.25%.
- Lowered disability rates for sheriffs, deputies and protection occupation members.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Officials of Guthrie County:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Guthrie County, Iowa, as of and for the year ended June 30, 2015, and the related Notes to Financial Statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated February 16, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Guthrie County's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Guthrie County's internal control. Accordingly, we do not express an opinion on the effectiveness of Guthrie County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control we consider to be material weaknesses and a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the County's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings as items (A) and (B) to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings as item (C) to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Guthrie County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under <u>Government Auditing Standards</u>. However, we noted certain immaterial instances of non-compliance or other matters which are described in the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the County's operations for the year ended June 30, 2015 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the County. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Guthrie County's Responses to the Findings

Guthrie County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. Guthrie County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Guthrie County during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

WARREN G. ENKINS, CPA
Chief Deputy Auditor of State

ARY MOSIMAN, CPA

Auditor of State

February 16, 2016

Schedule of Findings

Year ended June 30, 2015

Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

(A) <u>Segregation of Duties</u> – During our review of internal control, the existing procedures are evaluated in order to determine incompatible duties, from a control standpoint, are not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and, therefore, maximizes the accuracy of the County's financial statements. Generally, one or two individuals in the offices identified may have control over the following areas for which no compensating controls exist:

Applicable Offices

Station/Landfill

Station/Landfill

Recorder, Treasurer, Engineer, Transfer

Recorder, Treasurer,

Engineer, Transfer

- (1) All incoming mail is not opened by an employee who is not authorized to make entries to the accounting records.
- (2) An initial list of checks and money received is not prepared by the person opening the mail. An initial list of checks and money received should be prepared and compared with the cash receipts records and the bank deposit by a person not preparing the list or involved in maintaining the accounting records.
- Recorder, Sheriff's Commissary Account and Treasurer
- (3) Bank accounts are not reconciled promptly at the end of each month by an individual who does not sign checks, handle or record cash. A reconciliation should be prepared promptly at the end of each month and should be reviewed by an independent person, with the review being documented by the signature or initials of the reviewer and the date of the review.
- (4) Checks or warrants are not signed by an individual who does not approve disbursements, record cash receipts or prepare checks.
- (5) The responsibility for the change fund is not assigned to only one person.
- (6) The individual responsible for the detailed record keeping of investments should not be the custodian of the investments.

Recorder and Sheriff's Commissary Account

Recorder and Treasurer

Treasurer

<u>Recommendation</u> – We realize segregation of duties is difficult with a limited number of office employees. However, each official should review the operating procedures of the office to obtain the maximum internal control possible under the circumstances. The official should utilize current personnel, including elected officials, to provide additional control through review of financial transactions, reconciliations and reports. Such reviews should be performed by independent persons to the extent possible and should be documented by the signature or initials of the reviewer and the date of the review.

Schedule of Findings

Year ended June 30, 2015

Responses -

Recorder – We will try to do the best we can with our limited staff.

<u>Sheriff</u> – We will utilize one of our deputies who is not a signatory on the commissary account to review the transactions and monthly bank reconciliations. Upon review, the deputy sheriff will initial off and date the review.

<u>Treasurer</u> – Segregation of duties is very hard in a small office because it takes all five of us to do the work. Unfortunately there isn't someone that can open the mail and write everything down that doesn't touch the money, but we do take turns opening the mail.

All of us have to sign checks and record cash in the office which makes it impossible for an individual to reconcile bank statements that does not have the authority to do this; however, we take turns reconciling the statements and reviewing them.

We don't have a separate employee in the office that can handle the County investments that isn't responsible for the record keeping of the investments. The Deputy Treasurer and I both take care of the handling and record keeping of the investments.

We are a small office and operate with one tax drawer and one auto/miscellaneous drawer; however, we take turns counting the money out at the end of the day and have to balance with the money collected in cashiering. Also, whoever gets the deposit ready has someone else look over the deposit and sign off on it.

<u>Engineer</u> – As there are a limited number of employees in the office and frequent need to be outside the office, consistent daily segregation of duties as described above is not feasible. The County has started using a cash receipts log and utilizes a second person to perform a weekly review of the log. This person initials and dates their review.

<u>Transfer Station/Landfill</u> – As a small facility, the staff is extremely limited. There are normally only two full-time employees on duty at any one time. Part-time help are not office staff and the other full-time employee is always in the trash building and is not trained in office work. It is not practical to hire a special employee to collect and open the mail.

<u>Conclusions</u> – Responses acknowledged. For those offices with limited staff, County personnel from other offices could be used to provide additional control through review of financial transactions. Also, the reviews performed by an independent person should be documented by the signature or initials of the reviewer and the date of the review.

Schedule of Findings

Year ended June 30, 2015

(B) <u>Financial Reporting</u> – During the audit, we identified material amounts of receivables and bond proceeds not recorded in the County's financial statements. Adjustments were subsequently made by the County to properly include these amounts in the financial statements.

<u>Recommendation</u> – The County should implement procedures to ensure all receivables and bond proceeds are identified and included in the County's financial statements.

Responses -

<u>Auditor</u> – The County acted on advice from legal counsel/bond counsel on how to handle the disbursement of the funds. It was advised the funds go directly to the sanitary district not through the County.

<u>Treasurer</u> – We try to enter whatever accrual date is entered on the miscellaneous receipt that is brought to us from the other offices. We need to be better about questioning any large amounts brought to us in July and August to make sure they don't need to be accrued to the previous fiscal year. We will also be more careful about the state payments automatically deposited in our account in July and August because some of them are for 1 to 2 months prior.

Conclusions -

<u>Auditor</u> – Response acknowledged. Although advice was received to not run the funds through the County, the receipt, disbursement and subsequent liability must run through the County records since the debt is in the County's name and the County is responsible for payment.

Treasurer - Response accepted.

(C) <u>Buy Money</u> – No cash counts are performed on the drug buy and tobacco buy money. The fund logs are not used and the movement of cash to and from the fund is not properly tracked.

<u>Recommendation</u> – Cash counts of drug buy and tobacco buy money should be performed. A log should be used to track the movement of cash to and from the fund.

<u>Response</u> – A log has been developed to track the receipts and disbursements of cash from the drug buy and tobacco buy moneys. We will attempt to do cash counts on those moneys quarterly and have someone other than the Sheriff or Chief Deputy be present and initial off on the cash count.

<u>Conclusion</u> – Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters were noted

Schedule of Findings

Year ended June 30, 2015

Other Findings Related to Required Statutory Reporting:

- (1) <u>Certified Budget</u> Disbursements during the year ended June 30, 2015 exceeded the amount budgeted in the debt service function. Also, disbursements exceeded the amounts appropriated in two departments.
 - <u>Recommendation</u> The budget should have been amended in accordance with Chapter 331.435 of the Code of Iowa before disbursements were allowed to exceed the budget.
 - Also, Chapter 331.434(6) of the Code of Iowa authorizes the Board of Supervisors, by resolution, to increase or decrease the appropriation of one office or department by increasing or decreasing the appropriation of another office or department as long as the function budget is not increased. Such increases or decreases should be made before disbursements are allowed to exceed the appropriation.
 - <u>Response</u> The Board chose to amend for the debt service function in May. Departments are given monthly expenditure reports to track their expenditures. We will work with the Board and departments to amend the budget in a more timely manner.
 - <u>Conclusion</u> Response accepted.
- (2) <u>Questionable Expenditures</u> No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- (3) <u>Travel Expense</u> No expenditures of County money for travel expenses of spouses of County officials or employees were noted.
- (4) <u>Business Transactions</u> Business transactions between the County and County officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount	
Cheryl Jensen, employee, Spouse is owner of Jensen's Sanitation	Garbage pickup	\$ 2,077	
Jacki Sloss, employee, In-laws own Sloss Lawn Care	Mowing	2,080	

These transactions do not represent a conflict of interest in accordance with Chapter 331.342(2)(c) of the Code of Iowa since they were competitively bid.

- (5) <u>Bond Coverage</u> Surety bond coverage of County officials and employees is in accordance with statutory provisions. The amount of all bonds should be reviewed periodically to ensure the coverage remains adequate for current operations.
- (6) <u>Board Minutes</u> No transactions were found that we believe should have been approved in the Board minutes but were not.
- (7) <u>Deposits and Investments</u> No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the County's investment policy were noted.

Schedule of Findings

Year ended June 30, 2015

- (8) Resource Enhancement and Protection Certification The County properly dedicated property tax revenue to conservation purposes as required by Chapter 455A.19(1)(b) of the Code of Iowa in order to receive the additional REAP funds allocated in accordance with subsections (b)(2) and (b)(3).
- (9) <u>County Extension Office</u> The County Extension Office is operated under the authority of Chapter 176A of the Code of Iowa and serves as an agency of the State of Iowa. This fund is administered by an Extension Council separate and distinct from County operations and, consequently, is not included in Exhibits A or B.
 - Disbursements during the year ended June 30, 2015 for the County Extension Office did not exceed the amount budgeted.
- (10) <u>Annual Urban Renewal Report</u> The Annual Urban Renewal Report was properly approved and certified to the Iowa Department of Management on or before December 1 and no exceptions were noted.
